WHERE TO PUT STREET LIGHTS

Selecting Locations Not an Easy Task.

Water & Light Commission Has About Decided Where They Shall Be Placed—Rough Draft of Contract Read Before Aldermen—Fresh Start to Be Taken In Matter of Paving Buchanan Street—Routine Business.

The Board of Aldermen were in regular semi-monthly session last night and while a number of matters were discussed, but little real business was transacted. Mayor Pro Tem, Glascock presided in the absence of Mayor Stafford and all the aldermen were present, except Alderman Ellington.

A matter that was given considerable attention was the location of street lights. Chairman Sergeant, of the Water & Light Commission, was before the board with a chart of the city showing the locations of proposed lights. After going over the matter carefully it was decided that the locations made by the Water & Light Commission were about as good as could be selected, excepting two or three places. The addition of a number of new lights as per the new contract will require some changes in the circuits and the locating of these lights so the greatest benefits will be derived is no easy task.

As soon as possible a chart showing the several circuits will be furnished the Public Service Company. As soon as the number of lights is ascertained an order will be placed for that number and meanwhile the company will be rearranging the circuit so when the lights arrive they can be placed at once. It was stated some time ago that the order for the arcs had been placed, but as there was some uncertainty as to the number of arcs the city would use it was deemed advisable to hold up the order until the exact number was ascertained. A number of Tungsten street lights will be used in lieu of arcs.

City Attorney Shaw read a rough draft of the contract to be made with the company. There are several typewritten pages, on which are stated the terms agreed upon between the company and the city and such provisions as are usually inserted in a contract of this kind. The contract will now be drawn and if the several provisions contained therein are satisfactory to both parties the contract will be signed. It will not be legal, however, until the legislature passes an act empowering the aldermen to make such a contract.

The Buchanan street paving matter was again brought up and discussed. It is understood that before the Southern will agree to do the extra paving between the street and the passenger station the facts in the case will have to go before the officials in Washington. Inasmuch as the city, for other reasons, has got to take a fresh start from the beginning it was decided to have the Street Commission and the committee from the Board take the matter up with the officials and send a bill of particulars to Washington. It is believed that when the officials understand thoroughly the situation they will readily consent to have the entire space paved.

A couple of ordinances regarding the collection of money due by property owners for sidewalk paving were passed. Mr. J. C. Bishop protested against paying for work done on Buchanan street, claiming that the sidewalk taken up was a good one. His objection was overruled. Several matters of a routine nature were attended to by the board.

GOSSIP IS SHOCKING: SHOCKS A GOOD THING

Woman's Craving For Excitement Explained by Prof. Thomas As Inherited.

Chicago, Oct. 28.—Women like to gossip because the news of the terrible things the neighbors have done gives a pleasing shock to their vaso-motor systems. Unless the vaso-motor system receives a goodly share of shocks the individual suffers from ennui.

At least this is the theory which William I. Thomas, professor of sociology at the University of Chicago and inventor of the term "the adventurous character of woman," presented to the delegates of the National League of Handicraft Societies.

"Our primitive ancestors led exciting lives," Prof. Thomas said. "We share the appetite for excitement which their experience built up in the race, and, different as our occupations and amusements are from theirs, we enjoy them in proportion as they provide the shocks to the vaso-motor system which they got out of hunting, fighting and escaping from dangerous animals. We crave shocks.

"Perhaps that is the reason some women love husbands who beat them."

A STORY HOUR

Little People Hear Delightful Stories Told by Miss Heyward.

In spite of the cold weather of yesterday the story hour in the library was attended by fully a hundred bright eyed little people who listened with eager interest to the delightful stories of their friend, Miss Elizabeth Heyward, the story-teller of the day.

Miss Heyward is a kindergarten teacher whose successful work is well known to Greensboro people, and the library and the little ones are alike to be congratulated upon her kind co-operation.

The marching of the children led by two demure little lassies bearing small flags of North Carolina and the good offices of the two manly boys who act as the library's marshals for this pretty procession added much to the pleasure and comfort of the hour.

Ponies Will Arrive Wednesday.

Mr. John A. Young is expecting his herd of Shetland ponies on next Wednesday. There are twenty-three in the lot and Mr. Young will breed ponies for sale.

WAKE WILL GIVE USUAL MAJORITY

Independents And Republicans Lose Ground

Close Observers of Political Conditions In County Have Arrived At This Conclusion—Usual Vote Not Looked For—Granville's First Fair A Success—Exchange of Courts.

Raleigh, Oct. 28.—There is a growing impression among close observers of the local and county political situation that both the Independent Democratic and the Republican status which have been co-operating to a considerable extent have both lost ground considerably the past few weeks, the estimate being that the regular Democratic majority this year in the county will be probably as great as heretofore, although there will doubtless be a falling off in the total vote. This impression comes from an evident tendency on the part of some of those who bitterly resented the incriminations that were heaped upon the leaders of the element of the Democratic party defeated in the party primaries to conclude to stay away from the polls rather than walk up to the ballot box and put in a "bolter's ticket" or vote for the men whom they blame for the terrific assaults made on their candidates in the primary who were defeated.

Large numbers of those who very strongly resent the campaign methods of the successful faction of the party in the primaries will at the last minute vote the straight ticket purely for the purpose of maintaining party consistency. There will be a considerable tendency to scratch the ticket, especially as to the State senator, but this will be prevented to a considerable extent by managers of the regular wing keeping a close scrutiny on the preparation of the tickets as there won't be in all probability very active and influential workers out for the opposition. From a Democratic viewpoint the situation is clearing up very rapidly hereabouts with indications for small Republican vote owing to factional troubles.

My good old county of Granville has just closed her first county fair, said Hon. A. W. Graham, speaker of the House of Representatives, today. He spent the day here on business connected with the Supreme Court. He said the fair was particularly fine for the very first effort in that direction and that the fair association is firmly established and will undertake greater things from year to year. The fair was in progress Wednesday and Thursday of this week.

On authority granted by Governor Kitchin Judges Ferguson and Judge Justice have arranged an exchange of courts by which Judge Justice will hold the Northampton court Oct. 31; Bertie court Oct. 14, and Halifax court November 28 and Judge Ferguson will hold Swain court October 31; Cherokee court November 7; and Macon court November 21.

Judge Cook concluded the first week of a three weeks term of Superior court here today, adjourning the court over Saturday to Monday in order that he might spend Saturday and Sunday at his home at Louisville. He discharged this week's jury this morning.

A NEW DISTRICT.

One Will Be Considered by Western M. E. Conference.

When the Western Methodist Conference convenes in Winston on Nov. 13 a proposition will be made to form a new district out of the Mt. Airy, Winston and Salisbury districts.

Dr. R. M. Taylor, presiding elder of the Mt. Airy district, who favors the new district says:

"My proposition is to divide, and form a new district. There is all the territory we need for a new district, and I believe the good of the work demands it. Any attempt to absorb the surplus into one of the present districts would be only a temporary settlement of the problem, as the districts are all large and rapidly growing."

The plan, it is understood, is to transfer Stokes and all of Surry churches, now in Winston district, to the Mt. Airy district and take from the Salisbury district all the churches in Davidson county including Lexington.

THOUGHT IT WAS A MURDER CASE

Negro Boy Hits Another Negro With Lump of Coal and Stretched Him Out on Ground—Was Not Throwing At Lad He Hit—Injured Lad Will Be Able To Appear in Court This Morning.

The police thought for awhile yesterday afternoon that they had a murder case ready for Judge Euse this morning, but a further investigation showed that the supposedly dead negro was not badly hurt and he will appear in Municipal Court this morning to testify against the negro lad who laid him out.

The scrap, if it could be called such, occurred on the grounds of the Percy street school. Wilson Brooks, an overgrown lad, was picking at Hazel Headen, a small boy about 12 years of age, and had been told a number of times by Headen that he was going to hurt him if he did not let him alone. He grew worse instead of better. Headen says, and the little negro picked up a lump of coal about the size of his fist and let drive at Brooks' head. The latter dodged and the coal struck Percie Wellob, a negro lad who was standing just behind Brooks, squarely in the forehead.

The boy fell like a beef and it was at first thought that his skull was crushed. He was carried home unconscious and Dr. Rigdon Dees was called. An examination showed that the boy was only stunned. The coal had cut through the skin and bared the skull, but there was no fracture. He will be able to be in court this morning.

The Headen lad, who appears to be a rather decent negro, was carried to police headquarters, but when it was found that the Wellob negro was not badly hurt he was allowed to give bond for his appearance in court this morning. He regrets the accident, but contends that he was justified in throwing at Brooks.

LIGHT UNDER A BUSHEL

The One At The Corner of East Washington and Forbis Out For Two Weeks, Says Citizen of That Locality.

A gentleman living in the vicinity of East Washington and Forbis streets wishes public attention drawn to the fact that the street light at the corner mentioned has not burned in two weeks.

He says he has complained to the police department and been told that the Public Service Company is docked for all the time the light fails to burn. But the gentleman says that what he and his neighbors want is light, and the finding of the Public Service Company is no relief to them.

The Public Service Company says that when complaints come in from the night police about lights failing to burn, those complaints are investigated at once and the trouble corrected. The company also states, however, that some of the lights are in such bad shape that they are almost past redemption.

The new street lights will be installed at an early date; the Public Service Company is only waiting on the city to say where they shall be located.

SOCIETY ELITE WHITEWINGS

Women of Atlanta for One Day Clean the City's Streets.

Atlanta, Oct. 28.—Atlanta's fair society leaders and clubwomen donned white aprons yesterday morning and armed themselves with brooms to lead a militant crusade against dirt in the city's streets and back yards. They raised a prodigious dust, and found the experience no less interesting and no more strenuous than their accustomed bridge parties and dances. Incidentally they accomplished a real good, for they obtained the assistance of five or six thousand housewives, each of whom agreed in advance to set apart yesterday for a general cleaning of their respective premises.

For this one day the municipal street cleaning and sanitary department turned over its hundreds of men and its scores of mule teams and wagons to the officers of the Federated Women's Clubs of America. These women, with the assistance of able lieutenants chosen from among the belles of the city, directed a 12-hour campaign which had for its object the cleaning up of old little corners and out-of-the-way streets which have not always come in for their full share of attention under the routine dispensation of the forces.

Don't forget our mineral waters, Mt. Vernon and Veronica. We will handle it all winter. S. M. Maddox & Co. Phone 828.

FINAL DAY FOR REGISTRATION

Those Who Are Not Registered Tonight Cannot Participate in Election on November 8—Stedman Club Working to Have All Democrats Registered.

The registration books will close this afternoon at 6 o'clock and no man whose name is not inscribed on the registration book of his precinct will not be allowed to participate in the coming election in November. The man who fails to register disfranchises himself and no citizen should fail to see that he is properly registered so he can exercise his right to participate in the choosing of the officials of his county and state.

The members of the Stedman Democratic Club were busy yesterday waiting on those who had neglected to register. The telephone was often pressed into service to warn a delinquent of his neglect. Lists of the voters in the several precincts in the city were in the hands of the leaders who charged those of the members who could spare the time with the responsibility of calling on the unregistered Democrats in their respective localities.

A meeting of the officers of the club was held last night at which the work for today was mapped out. An effort will be made to have every Democrat in the city registered before the sun goes down.

If a person has moved from one precinct to another since the last election he will be required to register in the precinct in which he now lives, provided he moved four months ago.

Registrars and places of registration in Greensboro as follows:

Precinct No. 1—J. A. Coppedge, at treasurer's office in court house.

Precinct No. 2—J. H. Rankin, at Adams & Hunt's on West Washington street.

Precinct No. 3—E. D. Kuykendall, at Gate City B. & L. office, No. 105 East Market street.

Precinct No. 4—W. S. Hire, at Eagle Hose Company, Davis street.

LOSES WIFE, IN NEGLIGENCE

Husband Went Out For Sandwiches and Forgot His Hotel.

Chicago, Oct. 28.—Costless, collarless and necktieless, Thomas Falkenberg, of Freeport, rested on tired elbow on the window in front of Desk Sergeant O'Connor's desk at the Harrison Street Station, as the sun peeped through the Illinois Central smoke.

"Sergeant, I got a wife lost in this town somewhere, simply crying her eyes out. I know she is. She loves ham sandwiches, and that is why she is lost. Or, maybe, I am lost. It is hard to tell," said he.

The sergeant was mystified.

"It was this way: My wife and I got into town and went to a hotel. I did not like the price, so we tried another. My wife got hungry; so I went in search of some ham sandwiches. I left my coat and collar and necktie in the room. That was last night. I got the sandwiches, but I did not know the name of the hotel. I've been looking for that hotel and my wife all night. I gave it up, and came here for assistance."

The police are looking for the hotel and wife.

COURT ADJOURNS FOR WEEK.

Large Number of Cases Disposed of in Superior Court Yesterday.

Guilford Superior Court adjourned yesterday afternoon until Monday morning, there being no cases ready for trial. A large number of small appeal cases were tried yesterday and a number of others were nonsuited or continued.

In the case of A. V. Sapp, et al. vs. H. A. Moffitt the jury returned a verdict for \$506 in favor of the plaintiff. The plaintiff was seeking to recover damages because of an alleged breach of contract. In the case of T. C. Johnson vs. W. B. Lassiter a verdict of \$400 was given the plaintiff.

Will Have Interesting Service.

M. C. A. and Col. F. P. Hobgood, Jr., will be the speakers for this occasion. At night the pastor will occupy the pulpit as usual.

The reception committee of the Stedman Democratic Club are requested to meet Governor Glenn at the Hotel Hufine on Tuesday at seven thirty o'clock and escort him to the court house.

UNITED ATTACK WILL BE MADE

Through Courts on Mann-Elkins Act.

Railroads and Express Companies Will Unite In Movement—The Act Provides For An Interstate Commerce Court to Which Company or Shipper May Appeal—Constitutionality Is Questioned.

New York, Oct. 28.—It has been definitely decided that the railroads and express companies of the entire country will unite in an attack through the courts on the Mann-Elkins act, which was passed by Congress last June at the urgent solicitation of President Taft. The act provides for an interstate commerce court to which railroads and shippers alike may appeal.

The attack upon the law was decided upon by a conference of railroad lawyers from all parts of the country, who have been in session here for several days under the chairmanship of Colonel Henry L. Stone, general counsel for the Louisville & Nashville Railroad. The exact course of procedure is in the hands of the committee of seven lawyers to be appointed in the near future by Colonel Stone. The names of the men he will appoint will not be made public. Colonel Stone said before leaving for his home that most of the lawyers who attended the conference desired that secrecy be observed.

It is likely that Mr. Stone will be chairman of the committee as he has taken the lead in the discussion of railroad legislation ever since the national conference of railroad lawyers met at Portsmouth, N. H., early in August.

It is supposed that the railroads will attack the law on the ground of constitutionality. There seems to be little objection to the newly established court of commerce, but a strong opposition is manifested to the extension of the powers of the interstate commerce commission as provided by the new law.

The following provisions of the act are said to be the ones whose constitutionality is questioned by the railway attorneys:

That portion of section 15 which confers power upon the commission to suspend a rate for a possible period of ten months.

That portion of section 15 which reserves to the shipper the right to route freight when taken in connection with the Carmack amendment to section 20.

Long and short hauls and aggregate of intermediate rate classes as contained in section four.

The water route provision contained in section four.

The provision of section 15 with respect to the establishment of through routes and joint classifications and joint rates by the commission.

The provision in section 15 imposing the burden of proof upon the carrier as to the reasonableness of justice of increased rates.

When the guests opened the little pumpkins they found their fortune which caused a great deal of amusement. Miss Reid's guests were Mrs. I. H. In nearly every case where women and men have thin brittle hair, they owe it to dandruff. A NEW SCHOOL AT SUMMERFIELD

People of That Section Intent on Providing Adequate School for Their Children—\$2,500 Building Will Be Erected—About a Thousand Dollars Already Subscribed and Amount Will Be Increased.

County Superintendent Thos. R. Foust on Thursday held a meeting at Summerfield to discuss the educational situation. It was a largely attended meeting, and it was almost unanimously decided to exchange the old house and lot for a three-acre lot just north of Mr. H. C. Brittain's barn.

The lot selected is a beautiful location, and, after that had been decided, there was a call for subscriptions to be used in the erection of an up-to-date building at Summerfield. About \$1,000 is now in sight, and the people hope to make it amount to \$1,500. This money, together with an appropriation from the building fund by the County Board of Education, and the district school fund this year will be used for building and equipment. It is the intention to erect a house costing about \$2,500.

After the subscriptions had been taken in it was unanimously decided that a petition be circulated at once calling for an election to levy a special tax to help support the school. The meeting was very enthusiastic, and first-class school facilities for Summerfield are now practically assured. The people are united in their determination to do for their children as well as is done in other sections of Guilford county.

Although Summerfield has been a little slow in taking hold of the school question in earnest there is no doubt now but that the people are now going to push to a successful conclusion this question. A building committee was recommended; a committee to complete the subscription list was appointed, as was also a committee to circulate petitions for local tax. The whole county will be glad to know that Summerfield has taken this advance step for education.

BOTH SIDES ARE CLAIMING VICTORY

New York, Oct. 28.—"I believe we have Tammany and Wall street on the run and that Henry Stimson's election is now certain. But if we lose this time we will keep on fighting against this unholy alliance of dishonest business and dirty politics."—Colonel Roosevelt.

"John A. Dix will be elected without a question and the Democrats will probably control the Legislature, thus insuring a Democratic Senator in succession to Chauncey M. Depew. There will also be substantial gains in the State's Congressional representation."—Winfield A. Hupich, chairman of the Democratic State Committee.

"I have no figures to give out, but am certain New York State will remain Republican."—Ezra Prentice, Chairman of the Republican State Committee.

With the election only 12 days away and the fight at its bitterest, the men responsible for the campaign of both parties in the Empire State today emphasized their belief that their party will win the verdict of the people. Despite the confident claims, however, unprejudiced observers admit that the next week will tell the story. The swing toward either John A. Dix, the Democratic candidate, or Henry L. Stimson, the Republican choice, has not yet started.

The so-called "silent vote," which has been growing more and more conspicuous during the last few years, is the problem, and the confidential reports received by both sides show that canvasses so far have been useless.

In the betting Dix is still a 2 to 1 favorite, with a number of even-money bets being made by Republicans that he will not have 100,000 plurality in the State. The betting, however, has been very light and, admittedly, does not reflect the opinion of the experienced politicians, who say that it will be impossible to get a line on the real situation until the middle of next week.

"It Beats All."

This is quoted from a letter of M. Stockwell, Hannibal, Mo. "I recently used Foley's Honey and Tar for the first time. To say I am pleased does not half express my feelings. It beats all the remedies I ever used. I contracted a bad cold and was threatened with pneumonia. The first dose gave great relief and one bottle completely cured me." Contains no opiates. Sold by Howard Gardner.

Going Some.

"Speakin' o' fast trains," said Uncle Josh. "I was on one one time that whizzed past telegraph poles so fast that they looked like the teeth of a fine-tooth comb."

"That's nothin'," said Jones, "why I was once on a train down in Missouri that went so fast that the patches of corn and beans along the road looked like succotash."—National Monthly.

Two Short Words.

"The best," well describes the satisfaction every user feels when he tries Vick's Croup and Pneumonia Salve for his head or chest cold, or his croupy child. It is a comfort, a cure and a joy. Try a jar and get your money back if not pleased.

Shaming Him.

Bricklayer (to mate who had just had a hodful of bricks fall on his feet)—Drop'd 'em on yer toe! That's notin'. Why, I seen a bloke get killed stone dead, an' 'e never made such a bloomin' fuss as you're doin'.—Tit-Bits.

Temporary Heat Quickly

Did you ever stop to think of the many ways in which a perfect oil heater is of value? If you want to sleep with your window open in winter, you can get sufficient heat from an oil heater while you undress at night, and then turn it off. Apply a match in the morning, when you get out of bed, and you have heat while you dress.

Those who have to eat an early breakfast before the stove is radiating heat can get immediate warmth from an oil heater, and then turn it off. The girl who practices on the piano in a cold room in the morning can have warmth from an oil heater while she plays, and then turn it off.

The member of the family who has to walk the floor on a cold winter's night with a restless baby can get temporary heat with an oil heater, and then turn it off. The

DIFFERENCES IN FOGS.

Sea Mist and London Gloom Have Nothing in Common.

The fog of London and the fog of the sea alike discompose traffic, and omnibuses and steamships alike have had to lay to for safety. But while the London fog gets into your inmost room and baffles even the electric light—though the candle comes out triumphant curiously—the densest fog at sea does not disturb the saloon or the stateroom. Why is that?

The word "fog" has not been traced farther back than the sixteenth century, but the thing was known in the early years of the fourteenth. The commons, with the prelates and nobles visiting London for the parliaments and on other occasions, united to petition Edward I. to compel the burning only of dry wood and charcoal, as the growing use of sea coal corrupted the air with its stink and smoke, to the great prejudice and detriment of health. In 1308 the king prohibited the use of coal. Heavy ransom and fines were inflicted for disobedience. In the case of recalcitrant brewers, dyers and other artificers the furnaces and kilns were destroyed. But the restriction was evidently removed, for in 1308 \$250—probably equal to about \$4,000 now—was paid from the exchequer for wood and coal for the coronation of Edward II. —London Graphic.

MODERN BUSINESS.

The Big Jobs Demand Hustlers Who Are Gentlemen.

A notable change has taken place in American business methods within the last decade. Increasingly men of large affairs are asking when a young man is recommended for a big job, "Is he a gentleman?" This is significant in two ways. It means that the big business men are themselves gentlemen and like to deal with men who speak their own language and that American business methods have grown to be such that the gentleman has an advantage.

There was a time when a man who was a hustler could be a cad if he liked and it did not hurt his chances much. But that time has passed. The big business men of today want young men who are tactful, intelligent, independent, yet unassuming; who would know how to talk to a diplomat and be at home in a good club; who could be trusted to behave kindly, honorably and discreetly in any situation of life; who, in short, have as their ideal the old, never changing ideal of the gentleman. Not everybody can define it, but everybody knows it at sight. The gentleman, in short, can work along the line of least resistance, and that is why he is wanted.—Bookkeeper.

An Open Giver.

Harold's father was in the habit of giving \$1 a Sunday to the church. This was put in a numbered envelope in the collection plate and the amount credited to him on the church books. Mr. T. was away for the summer and on his return inclosed his arrears in the envelope and intrusted it to Harold to put on the plate. When the little boy came home from church he said proudly, "I put an awful lot of money on the plate this morning—more'n anybody else, I guess." "You got the envelope there all right?" asked his father carelessly, for Harold had been almost afraid to carry so much money. "Oh, yes," he said, "but I took the envelope off when I got there and just put the money on the plate in my hand. Nobody 'd have known how much I gave if I'd left it in the envelope."

Elephant Threnodies.

The natives of certain portions of south central Africa, says the Duchess of Aosta in Harper's Weekly, look on the death of an elephant as an event. They attach an almost religious aspect to it. "As soon as the animal stalked is stretched out on the ground the hunters climb upon the huge, still warm body and there perform a dance, gesticulating and shaking their guns, accompanied by a sort of litany, in which they extol the animal and his qualities, his strength, his size, his cunning; then they praise the skill of the hunter, his prompt eye, his accurate shot. And this song is just murmured, as if they were afraid that if they raised their voices they would attract the curse of the spirit which has just left the animal and is still floating round him."

How Parchment Came to Be Used. When the literary jealousy of the Egyptians caused them to stop the supply of papyrus, the king of Pergamos, a city in Asia Minor, introduced the use of sheepskin in a form called, from the place of its invention, pergamona, whence our word parchment is believed to be derived. Vellum, a finer article, made from calfskin, was also used. Many of the books done on vellum in the middle ages were transcribed by monks, and often it took years to complete a single copy.

"Are you sure he forgot to leave it?"
"Yes; he told me so just as he went."
—Cleveland Leader.

One of Many.

"Then you think you won't have a permanent place in her heart?"
"I'm just a notch on her parasol handle; that is all."

Even debilitated football has its fatalities. A Cornell freshman has just died from injuries received on the gridiron.

The Southern is going to put on a new train, "The Southeastern Limited." This suggests a suspicion that prosperity is returning, or, anyhow, on the way.

Tacoma is to be counted over again. Its desire to show a large population led it into rank deception. It had a bad case of megalomania under the influence of which men lose their principles.

Vice President Sherman attributes the high price of farm products to the high tariff. Suppose the production of the various farm products were doubled next year. Would the high tariff still keep the prices up?

In mentioning yesterday in this column the bond advertisement of Marion Butler and others appearing in April, 1905, we inadvertently said that it appeared in the Saturday Evening Post. We should have said New York Evening Post. It was in the latter paper that the ex-Senator advertised his preparedness to collect "repudiated bonds of every class."

The notion that Mr. Bryan's popularity is waning is too hasty. His tour through Indiana is distinguished for crowds more numerous and enthusiastic than any other speaker thereabouts has called out. Station agents along a line of small communities are compelled to flag his train in order that the eager people may be served with back-platform speeches between his scheduled appearances.—Providence Journal.

Bryan is an honest, sincere man and a matchless orator. That sort of a man can draw a crowd anywhere. Bryan shines mightily by comparison with another conspicuous American. One couldn't conceive of Bryan calling a United States judge or any one else for that matter a "d— jackass and crook."

Dr. T. D. Crothers, of Hartford, Conn., a noted alienist and who once appeared here as a witness in a murder case, made an address at Newport News this week on the effect of alcohol on the human system. A dispatch from Newport News says:

Passing by the habitual drunkard as one who should be locked up in a home, Dr. Crothers devoted much of his lecture to the man who uses alcohol in so-called moderation. He declared that twenty years ago physicians thought whiskey in small doses or any form of alcohol was a stimulant, good for tired nerves and overworked body, but experiments conducted at Heidelberg, Germany, he said, had convincingly shown that a two-ounce dose had caused a great decrease in the power of the senses of five young men on whom the experiment was tried.

Twenty minutes after the drink was taken the patients could not see, feel, hear or smell with the same power by a difference of 10 per cent. as they could before the treatment.

He said that sons of moderate drinkers were more than apt to be given to the use of alcohol and the daughters subject to hysterics and nervous diseases. Furthermore 40 per cent. of children of such parents were likely to be degenerate.

Moderate drinkers should find food for thought in these words of one acknowledged to be an authority. Dr. Crothers says that sons of moderate drinkers are more than apt to be given to the use of alcohol. And moderate drinkers cannot have any assurance that their sons will not drink immoderately. Equally as appalling is the likelihood that the daughters of moderate drinkers will be subject to hysteria and nervous diseases. It will also be noted with interest that Dr. Crothers has a solution for that very vexatious problem, the habitual drunkard. "Lock him up in a home," the alien-

ist says. And really it would seem that that is about the best course to pursue.

Women Could Put An End To War.
John Ruskin.

The real, final reason for all the poverty, misery and rage of battle throughout Europe is simply that you women, however good, however religious, however self-sacrificing for those whom you love, are too selfish and too thoughtless to take pains for any creature out of your own immediate circle. You fancy that you are sorry for the pain of others. Now, I just tell you this, that if the usual course of war, instead of unroofing peasants' houses and ravaging peasants' fields, merely broke the china upon your own drawing room tables, no war in civilized countries would last a week. I tell you more, that at whatever moment you choose to put a period to war you could do it with less trouble than you take any day to go out to dinner. You know, or at least you might know if you would think, that every battle you hear of has made many widows and orphans. We have, none of us, heart enough truly to mourn with these. But, at least, we might put on the outer symbols of mourning with them. Let every lady in the upper classes of civilized Europe simply vow that, while any cruel war proceeds she will wear black—a mute's black—with no jewels, no ornament, nor excuse for, or evasion into prettiness—I tell you again no war would last a week.

NERVES—THE NATIONAL DISEASE

"A nervous breakdown is, as a rule, the result of weeks, months, even years of strain," says Dr. Jean Williams in Woman's Home Companion for November, "and at almost any time before disaster has overtaken one a complete change of habit, the shutting off of waste, the increasing of energy-making products, perfect rest until balance has been restored, would save the day. But here we must acknowledge the greatest difficulty. The victims are so often blind or indifferent to their own physical deterioration until they have arrived at that miserable state where only their own sad condition and numerous abnormal symptoms are of interest to them. We witness then the appalling self-engrossment characteristic of so many neurotics. Such patients often resist against relief, refuse to co-operate with a physician or others who try to aid and encourage them and feel almost insulted if symptoms of good health or improvement are noted. In such cases effort must be directed toward the mental attitude, and at the same time, and this is very important, the physical basis of a healthy nervous system must be obtained."

Convicted by His Own Autograph.
Asheville Gazette-News.

It was to considerable purpose that Senator Simmons addressed the voters of Asheville last night. The senior senator was particularly convincing and forceful in dealing with the paramount issue of this campaign—the personality of Marion Butler. That person has asserted, usually with profane emphasis, that he has sought at no time to interfere himself in but one class of repudiated bonds, those held by Shaffer Bros., but Senator Simmons last night produced documentary evidence which leaves Butler convicted by his own autograph. It was shown, by an advertisement published in the New York Evening Post, that Butler sought clients from all classes of repudiated bondholders, in all Southern States. In that advertisement Butler drew none of the fine distinctions about which we are now hearing, when Butler once more has an eye single to the Senate.

Adelaide Thurston Loses Voice.

New York World.
Cohan & Harris, managers, received a despatch from New Orleans yesterday stating that their latest acquired star, Adelaide Thurston, had been taken suddenly ill and was unable to play.

The actress, who is appearing in a comedy called "Miss Ananias," has been on a Southern tour for several weeks. While travelling on a Florida Central train Tuesday night she fell ill and lost her voice. The manager of the company notified Cohan & Harris, and they had specialists meet Miss Thurston at the train in New Orleans. It is expected that she will be able to play next Monday night.

Proving a Statement.

A certain minister, who is an emphatic preacher, is at times at a loss to give his utterances proper weight. For instance, he'll say:
"This statement is as true as is the night which will follow day," or "as true as that the trees will bud in spring."

Sometimes it happens that the doctor has more statements than he has illustrations to give them weight. On one such occasion he remarked, "This is as true as the"—Here the doctor halted. He paused a few moments, and then his face illumined—"as true as is the statement that some member is yet on his or her way to church."

The Parrots of Mexico.

What the wild pigeon once was in point of numbers to the United States the parrot, of varying shades of color and all sizes, is to old Mexico. Flights of these birds frequently darken the midday sun in the hot country, and they become so tame around the camps of engineers that the birds are given individual names and soon become regular pets. Whenever the parrots desert the forest and alight on the ground in the open spaces of the jungle the natives recognize their actions as sure warning of an impending earthquake. American engineers endorse this belief and assert that serious accidents which might have been averted have resulted when the warning of the birds was noted, but unheeded.

A Line on Mother.

"I don't see how I'm ever to get a chance again with this boy around," wailed the little widow with the small son. "The other day a man I like awfully well asked me how old the town was that we came from. The boy spoke up without giving me a chance to put in a word:
"I don't know just how old it is," he said, "but it must be pretty old because mamma was born in it."—New York Press.

CHRISTIAN SUN ENLARGES.

Organ of Southern Christian Convention
Now Published at Burlington.

Elon College, Oct. 28.—The Cosmopolitan Club met in its regular bi-monthly session on last Tuesday evening of this week at the home of Mrs. W. A. Harper. The chief item of the evening was the presentation of a paper by Prof. N. F. Brannock of the department of chemistry and physics, on the Beginnings of the Chemical Sciences. Following the paper Prof. Brannock was asked a good many searching questions which led to an informal discussion of the club and many points were discussed. The next meeting of the club will be in the parlors of west dormitory, when Prof. Lawrence will read a paper on the Development of the English Novel, beginning with Richardson.

Quite a number of our people attended the Kernode-Proctor nuptials at Graham Wednesday of this week. Miss Wilson, of the music department, presided at the piano during the marriage ceremony. Miss Kernode is a graduate of this institution.

Dr. J. O. Atkinson has enlarged the Christian Sun and changed its place of

publication from Greensboro to Burlington. Dr. Atkinson thus increases the size of his paper materially and brings it up to the standard in size of the other religious organs in the state.

Mr. Bunn Hearn, who made such a reputation here last spring as chief pitcher on the college team and who made good this summer in the Eastern Carolina League with Wilson and then later on with the Nationals, where he played with St. Louis, is now on the hill, acting as athletic director. Mr. Hearn is sanguine of the prospects for a good team next spring.

GREENSBORO WILL PLAY REIDSVILLE

High Schools of the Two Places To Meet on the Gridiron This Afternoon—Game Promises To Be a Fast One.

The third game of the Greensboro High School football schedule on the home grounds will be played this afternoon at 3:30. With Reidsville High School pitted against them the local team will make a strong effort to add another victory to its growing list. Reidsville puts out as husky a bunch of football material as can be mustered in many preparatory schools.

The two High School teams will each have a large delegation of rooters. The recently organized Rooters' Club of the local High School will be on the field for the first time.

Reidsville has been plotting against Greensboro for some time and her determination to retrieve former defeats promises to be productive of a fast game.

A SUDDEN DEATH

Mr. T. A. Ferguson, Well Known Insurance Man, Found Dead in Bed.

Mr. Thomas A. Ferguson was found dead in bed yesterday morning at seven o'clock at his home, 918 West Lee street. His body when found was slightly warm, indicating that death had ensued only a short while before. The sudden death was attributed to heart trouble. The deceased was 38 years of age.

Mr. Ferguson was on the street Wednesday. Thursday he was not feeling well and remained at home. Thursday night he called in a doctor, who, however, found nothing serious the matter with him. He retired about 10 or 10:30 and not thinking him seriously sick none of the members of the household visited his room during the night. The family were terribly shocked the next morning to find him dead.

The funeral will take place at the residence this afternoon at 3:30 o'clock and will be conducted by Rev. R. G. Kendrick, pastor of Forest Avenue Baptist church. The remains will be carried to the old home place in Caswell county for interment, being taken on No. 44 tomorrow morning.

Mr. Ferguson had been an agent in this city for the Life Insurance Company of Virginia for ten years and was held in high esteem by the officials of that company and by his fellow agents. He was quiet and reserved in his disposition, but those who knew him could testify to his sterling qualities. He was a member of the First Baptist church.

He is survived by his mother, Mrs. M. A. Ferguson, with whom he lived, and by three brothers and one sister, Messrs. J. E. Ferguson, of Winston, W. H. Ferguson, of Charlotte, Samuel Ferguson and Miss Bettie Ferguson, of Greensboro.

THE REVIEWERS' CLUB.

Entertained Their Husbands Thursday Night At the Home of Mrs. M. G. Newell.

Prepared for The Telegram.

At the home of Mrs. M. G. Newell, on Smith street, Thursday evening, the Reviewers' Club entertained in honor of their husbands, at a most unique Shakespearean musicale. The distinctive feature of the evening was the music of the Elizabethan period of English literature—that era of literature being the subject of study interesting the club this year. Mrs. B. C. Sharpe, and Mrs. A. B. Kimball gave voice and piano selections as guests of the club, Misses Lindsey and Woodall added much to the interest of the hour with their piano and violin numbers. As a closing feature, Mr. Hill, director of music at the State Normal College, gave a most instructive talk on Shakespeare, his home, and his theater, at Avon, giving this from the view point of the man who has been on the spot, he enriched his talk with breezy personal experiences, which gave a pleasing finale to the evening's entertainment.

In behalf of the gentlemen present, Mr. E. P. Wharton, in his usual pleasing manner, expressed thanks and appreciation to the club.

PELLAGRA CURE CLAIMED

Blood Transfusion the Remedy—Once Only.

Chicago, Oct. 27.—That blood transfusion is the cure for the mysterious disease known as pellagra is asserted here today as the result of experiments conducted at the Cook County Infirmary at DuPage, Ill., where Dr. C. O. Whitte says this method of treatment has won in 34 cases treated to date.

"Pellagra is common at our institution," declared Dr. Whitte, "and so far as we know the transfusion of blood is the only reliable treatment. The best blood for inoculation comes from persons who have been cured of the disease and only one transfusion is necessary. Shortly after the treatment the skin of the patient clears up and he becomes more active in body and mind. I have no doubt the transfusion method will prove a cure in nearly if not in all cases."

FOUR PER CENT. PAID ON SAVINGS DEPOSITS.—FOUR PER CENT.

THE DIFFERENCE

between a dollar saved and a dollar spent is just two dollars. Did it ever occur to you that way? It's worth thinking about.

Another difference is the feeling you have afterward. The dollar saved gives you a feeling of real pleasure—it may call for a little sacrifice for the time being, but afterward you feel better for having denied yourself and the dollar is still yours. That is the nice thing about having money in the bank—you have saved it—it is still yours—you can have it when you wish.

We make it a part of our business to urge you to have a bank account as this bank, for it not only helps our business but yours more so.

STONE IN KIDNEY

An interesting case was that of Mr. H. L. McDuffee, a member of the firm of H. C. DeWolfe & Co., of the Crocker Building, San Francisco.

The case was puzzling. There was pain in the kidney with a showing of blood. Examination by seven physicians proved that the blood was from the kidneys, and it was the opinion of all that there was a stone cutting the kidneys, as the least exercise caused a showing of blood.

Four X-Ray pictures were taken, three of them showing a stone half an inch in diameter. To be certain that it was a stone that cast the shadow, a similar stone about the same size taken from a patient was put under him for comparison—both stones showing on the plate.

An operation was about decided upon when Fulton's Renal Compound was recommended to Mr. McDuffee. He feared the knife and gave it a trial.

Within ten weeks the blood and pain had ceased and in six months he considered himself well.

We also have a three-page letter from an old school physician, a lecturer in one of the San Francisco Medical Colleges, covering a similar case of stone in the kidney. An operation seemed inevitable.

He prescribed Fulton's Renal Compound upon the theory that as it was getting results in Nephritis it ought to have some effect to reduce the inflammation and excessive uric acid that attends Calculus. He was so surprised to get a complete recovery that he thought a record ought to be made of it and gave us the letter above referred to.

Fulton's Renal Compound seems to have about the same percentage of efficiency in stone in the kidney that it has shown in Bright's Disease.

For free literature, address the John J. Fulton Co., 645 Battery street, San Francisco, Cal.

Fulton's Renal Compound can be had of our agent, Fariss-Klutznick Drug Co.

WORKING WOMEN

Here is a Helping Hand—A Newton Woman's Experience.

You know just how it is yourself—when you are tired out, perhaps a little run-down, and hardly able to drag around, life is a burden, you are irritable, nervous, depressed and every little task seems like a mountain.

Miss Katharine Burns, of Newton, Mass., says—"About six months ago I was in a run-down condition and my blood was very poor. I had taken several medicines prescribed by physicians, but they seemed to do me no good. Finally Vinol was recommended, and from the first bottle I noticed a great improvement. I have taken six bottles and I feel as well as ever, and I would recommend Vinol to anybody needing a good tonic to build them up and make them strong." (We guarantee this testimonial to be genuine.)

We want to ask every woman who finds herself in this condition to try Vinol, our delicious cod liver and iron tonic, without oil, with the understanding that their money will be returned if it does not help them.

We know Vinol will create an appetite, aid digestion, make pure, rich blood, and in this way build up and strengthen the run-down, overworked, nervous system. You take no chances. Try it. Fariss-Klutznick Drug Co., Greensboro, N. C.

JOKES AT MURDER.

Desperado Caught at Last—Won His Wife After Three Days' Courtship. New York World.

The East St. Louis police are certain that in Leigh Rhodes they have the "Candy Kid," the young desperado accused of many crimes in Western cities, including Chicago, Rock Island and Moline. Indeed, Rhodes, swaggering and smiling, confessed to several hold-ups and burglaries which the police ascribed to the "Candy Kid." This confession will release D. R. Goodhue, who has been held in East St. Louis for several days on suspicion of being that bandit.

Rhodes also confessed to the murder of Dr. W. D. Micaelas, at Englewood, Ill., last summer.

"Yes, I shot him," said Rhodes with the air of a man who had brought down a bird at long range. "I saw a big diamond ring on his hand. When we met I pulled my gun and ordered him to throw up his hands. He kept his hands in his pockets and, believing he had a gun, I shot him in self-defense."

But he added laughing: "I'll get my neck cracked sure for that."

Rhodes was arrested while he was having supper with his wife at their home in East St. Louis last Sunday. Three detectives rushed in with pistols leveled at him.

"You've got me," said the "Candy Kid" calmly. "There's no use bluffing; I'll go quietly."

He met his wife, a country girl, at a picnic near St. Louis July 4 and married her after three days' courtship.

"I liked the way he talked," Mrs. Rhodes explained.

They went to Chicago, the "Candy Kid" was away from home every night, his wife says. He explained he had to attend the meetings of "lodges" of which he was a member. Finally she accused him of being crooked and he confessed.

But she stuck to him and is striving to get him released on bail.

Capt. Bogardus Again Hits the Bull's Eye.

This world famous rifle shot who holds the championship record of 100 pigeons in 100 consecutive shots is living at Lincoln, Ill. Recently interviewed, he says: "I suffered a long time with kidney and bladder trouble and used several medicines, all of which gave me no relief until I started taking Foley Kidney Pills. Before I used Foley Kidney Pills I had severe backaches and pains in my kidneys with suppression and a cloudy voiding. On arising in the morning I would get dull headaches. Now I have taken three bottles of Foley Kidney Pills and feel 100 per cent better. I am never bothered with my kidneys or bladder and again feel like my own self." Sold by Howard Gardner.

Dress Slowly.

Springfield Union.

Never boast that you can dress in five minutes. No woman who has any respect for her appearance or her clothes will attempt to dress in even double that time. It is true in dressing as in anything else that where there is the more haste there is the less speed. It is particularly trying for a woman to dress in a hurry. She gets flurried and then everything goes wrong. Buttons come off shoes, or laces break, gloves and veil cannot be found until boxes and drawers have been turned upside down, and then the missing articles are very often found on the dressing table. When she does at last get ready, she is conscious of looking her worst and feeling hot and angry with herself and everybody else.

The Polka.

The polka is the natural dance for the feet of the people. Take in evidence its origin. A Bohemian peasant girl was seen dancing "out of her own head," extemporizing from the sheer joy of her heart song, tune and steps. This she did on a Sunday afternoon in Elbeletitz, and an artist, one Josef Neruda, who spied her, made a note of all he saw. The people of the town adopted the dance and called it the polka, half step. In 1835 it reached Prague and Vienna in 1840; thence it spread rapidly through Europe. When M. Cellarius introduced it to the Parisians we hear that all else gave way before "the all absorbing pursuit, the polka, which embraces in its qualities the intimacy of the waltz with the vivacity of the Irish jig."—Cassell's Magazine.

ELECTRIC BITTERS THE BEST FOR BILIOUSNESS AND KIDNEYS

ANCIENT YUCATAN.

Its Mysterious Ruins Once the Scene of Human Sacrifices.

It was Chichen-Itza the magnificent, the Taj Mahal of Central America—and the building we were gazing on was the most wonderful of the ruined group.

As we looked upon it in the moonlight we could not help feeling how awe inspiring this colossal temple, rearing itself 120 feet into the air, must have been to the ancients. On the top of the pyramid still stand the crumbling ruins of a temple. It is reached by a stairway on each side of its four sides, having 120 steps apiece, and contains three rooms, the doorposts of which are carved with the figures of priests, except the one facing eastward, which has large pillars carved into the forms of serpents. The heads of these are turned so that they lie flat upon the top of the pyramid, their eye sockets still bearing traces of the rich green jade that once filled them.

As we sat we pictured to ourselves the strange and barbaric scenes that had here been enacted, for if legends are to be believed it was on these fluted serpents' heads that the tyrant priests of the Itzas, majestic in their bejeweled and befeathered robes, tore out the palpitating hearts of their sacrificial victims after slicing open the breasts with a silex knife.

These sacrifices were probably performed in view of thousands of worshippers of the sun deity congregated on the plains below, the heart after it was torn from the membranes being burned as an offering in the inner holy of holies, while the body of the victim rolled down the stone steps to be sacramentally eaten by the people.—World Wide Magazine.

Forced to Leave Home.

Every year a large number of poor sufferers whose lungs are sore and racked with coughs are urged to go to another climate. But this is costly and not always sure. There's a better way. Let Dr. King's New Discovery cure you at home. "It cured me of lung trouble," writes W. R. Nelson, of Calamine, Ark., "when all else failed and I gained 47 pounds in weight. Its surely the King of all cough and lung cures." Thousands owe their lives and health to it. Its positively guaranteed for Coughs, Colds, LaGrippe, Asthma, Croup—all Throat and Lung troubles, 50c and \$1.00. Trial bottle free at Fariss-Klutznick Drug Co.

HOBBLE SKIRT AS EVIDENCE.

Accused Woman Shows That She Cannot Kick Dith It On.

New York, Oct. 28.—Frances Stultz, of 19 Sackman street, East New York, in the New Jersey Avenue Court in Brooklyn was accused of having kicked the shins of Mrs. Bertha Lang, her next door neighbor.

"Oh, my, how could I?" asked the defendant.

"Here I am in court," she continued, "in the very identical hobble skirt I wore Sunday night. Now I leave it to the magistrate. How could I kick her?"

Miss Stultz made a motion with her foot, but the 14-inch-in-diameter hobble skirt kept her foot from moving more than ten inches from the floor. The Court smiled and so did the front row of the spectators.

It was testified Miss Stultz, who is 20 years old, punched Mrs. Lang, who is 19, pulled her hair and called her "hussy" and "cat." It was said the women were friends until John Lang married Bertha.

When You Buy Sox—Think of Your Wife

Next time you buy Sox remember this fact—your wife will appreciate "Holeproof." If you take common hose she will have to darn them every week. If you insist on "Holeproof" she will have no darning to do for six months.

It costs no more to get the genuine "Holeproof." Don't let anyone sell you an imitation—think how your wife will have to sit up nights for six months to keep them mended.

Insist on "Holeproof" and see how surprised and delighted your wife will be for the next half year.

FAMOUS Holeproof Hosiery FOR MEN WOMEN AND CHILDREN

The makers have spent 31 years to reach this perfection in hosiery. So remember when others offer to imitate the guarantee they can't imitate the quality.

They pay 63 cents a pound for the best Egyptian and Sea Island cotton. Others often use common cotton at 12 cents a pound.

The yarn is 3-ply in the body and 6-ply in the heels, toes and knees. Others use 2-ply throughout. But you pay the same price for both.

"Holeproof" is shaped to fit the ankle as neatly as a glove fits the hand. The fabric is soft and comfortable—it is simply perfection in hosiery.

Ask our clerks to show you the hosiery. It comes in eleven colors for men, six for women and two for children. Prices from \$1.50 to \$3 a box of six pairs. Come in and see it today.
